Prenuptial Agreements

A prenuptial agreement is a crucial legal document that allows couples to clarify their financial rights and responsibilities before marriage. It helps in safeguarding assets, defining spousal support arrangements, and minimizing conflicts in case of future separation or divorce.

At Unruh Turner Burke and Frees, we offer a range of services tailored to meet your needs:

- Drafting Prenuptial Agreements: Customized agreements that reflect your unique circumstances and protect your assets.
- Review and Consultation: Comprehensive review of existing agreements and consultation to ensure clarity and fairness.
- Negotiation and Amendments: Skillful negotiation to achieve agreements that satisfy both parties, with provisions for potential future changes.
