Appeals Lawyers

Our Pennsylvania appeals lawyers have briefed and argued appeals in multiple state and federal jurisdictions on a variety of matters. We have broad experience appellate cases including, most recently appeals addressing telecommunications, taxation and the constitutionality of state statutes. Our appeals lawyers frequently review the merits of appeals with clients and referring counsel to determine the best path forward. When the appeal is pursued, we handle the case through argument to issuance of a decision.

Our appellate lawyers also provide critical advice to trial lawyers, both within and outside the Firm, to develop legal strategies and shape arguments to create the most beneficial record in anticipation of potential appeals. This advice includes assisting with briefs for significant legal matters at the lower court level to ensure that arguments are properly preserved.
